**Subject:** Re: IARC Monograph vol 112 Final pre-meeting tasks

Dear Kate, all,

I should be able to provide 2nd drafts of section 4.2.1 (when needed), and a first draft of section 4.6 for M5-TCVP on Mon 23.2.2015.

For restructuring the text according to suggested data presentation, I will see whether I manage; otherwise I will kindly ask the IARC secretariat to help on this topic.

Kind regards - Frank

Dear all,

Many thanks to all for the great progress! Except for 4.3 (pending analysis by Matt/Ivan next week) and 4.6 (see #4 below), first drafts of all Section 4xs are on IOPS.

Final pre-meeting action items:

1. Peer reviews, top priority are:

- PAR 4.2.3 (LZ), 4.2.4 (MM), 4.5 (MM)
- DZN 4.2.1 (LZ and/or MR)
- 4.5 (all chemicals— thanks to Matt for getting these up last night)!
- Please note, I have added minor remarks in the Comments box on IOPS for the above.

2. Revisions to address peer reviews. **Please use the formatted file on IOPS, and revise per Peer Reviews and Comments!**

3. Minor rearrangements. For consistency, suggested data presentation order is: Human/in vivo/ in vitro; Experimental systems/in vivo/in vitro. The IARC secretariat can address these in pre-meeting processing if you wish, just let us know.

4. Sections 4.6— a Word file for you to further revise is on IOPS, Section 4.6 of each monograph. Please further modify these files, or use the on-line table-builder tool here: <http://188.226.181.207/>

5. Deadlines. We would greatly appreciate all second drafts by **Monday 22 February**. After that, please let me know if you need to urgently revise the electronic files.

6. Pre-meeting reading.

- We are populating the **Drafts\_for\_Meeting** folder on FTP (<http://filedepot.iarc.fr/>) for easy download of multiple files; ready are sections 2 and all but PAR of Section 3; Section 2 Tables are on the Table Builder.
- A PDF of all Section 4 components for each monograph will be posted for ease of pre-meeting review.

Thank you all again for your outstanding efforts thus far— we look forward to updates on the final status of your files, and to seeing you in Lyon very soon!

Bon weekend,

Best,

Kate

**Subject:** IARC Monograph vol 112 Final deadlines and new articles

Dear all,

Many thanks for your participation in the teleconference yesterday! A recap plus an update on the literature:

1. Deadlines:

- All first drafts submitted before Monday 16 February
- All peer reviews completed by Friday 20 February
- All second drafts submitted before Monday 22 February.

All drafts will be distributed in hardcopy to the entire Working Group and all other attendees (representatives, invited specialists, representatives, observers and secretariat). I thank you in advance for your adherence to these deadlines.

2. New articles:

As you finalise your 1st/2nd drafts, please check on HAWC for newly identified articles (see “NEW” tag under Section 4 in each assessment). I’ve updated all the literature searches, and tagged any new relevant articles with the tag “NEW” plus any other relevant Section 4 tags. The toxicokinetic searches retrieved most “new” articles, but in fact some are quite ancient and must have been identified through new PubMed Mesh-tagging; sorry for this. Please use your best judgment on inclusion in the drafts.

3. Section 4.6— I have uploaded a Word file for you to further revise on IOPS, Section 4.6 of each monograph. Please further modify these files, or use the on-line table-builder tool here: <http://188.226.181.207/>

4. PDF requests— don’t hesitate with these as you finalise your efforts.

Thank you again,  
Best regards,  
Kate
